

1503 1903 2203

Robust high-tech quality.

Neuson has over 20 years experience as a European pioneer of compact excavators. From the start Neuson excavators have been renowned for structural strength with smooth, robust hydraulics capable of a long operating life. Top quality hydraulic components, together with state of the art assembly and workmanship, produce a definable benefit for the customer... high productivity at low operating cost.

Leading through innovation.

Neuson is renowned for innovative engineering solutions in compact excavators. This includes a number of industry firsts, such as telescoping undercarriage, Kippmatic tilting superstructure and Vario technology. The new zero-tail swing can now be added to Neuson's list of innovations.

Full Product Line.

The Neuson compact excavator line includes 17 models from 0.9 to 12 tons, with tracked and wheeled machines available. It is one of the widest ranges available on the market today. All models in the range have high performance, top quality and heavy duty construction included as standard.
